

ORDINANCE NO 237

AN ORDINANCE AMENDING SEWER ORDINANCE NO. 138

Ordinance No. 138, Article V "Building Sewers and Connections", Sec. 10, is amended to read as follows:

Sec. 10.

Subd. 1(a). Prohibited Discharges, Storm Water Drainage. No person shall discharge or cause to be discharged any "storm water drainage" defined as any storm water, ground water, or flow from roof runoff, surface runoff, subsurface drainage, down spouts, yard drains, sump pump, yard fountains, drains, swimming pools, ponds, cistern overflows or lawn sprays into any sanitary sewers.

Subd. 1(b). Unlawful Acts. It is unlawful for any person to make or maintain a connection between eave troughs, rainspouts, footing drains, or any other conductor used to carry natural precipitation or ground water, and the sanitary sewer system or any part thereof.

Any property owner in violation of this section and upon receiving notice of said violation, shall disconnect the conductor from the sanitary sewer system within the designated time specified within the notice or 90 days, whichever is shorter. Any property owner in violation of this section shall be assessed a monthly surcharge of \$100.00 per month or as amended from time to time by Resolution of the City Council, for each month that the conductor is not permanently disconnected. Failure to permanently disconnect the conductor, or reconnection of the disconnected conductor, may result in the suspension of water and sanitary sewer service.

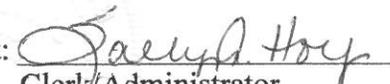

The property owner shall allow a City Inspector(s) on the premises to conduct inspection of the sanitary sewer service and any connections. Failure to allow said inspector(s) on the premises shall warrant the surcharge and potential suspension of service as an illegal connection above.

Prior to change of ownership of any building within the City of Braham, the seller shall be required to get a current City inspection and Certificate of Compliance.

This Ordinance shall be in full force and effect after this adoption and publication.

Adopted by the Braham City Council this 1<sup>st</sup> day of March, 2005.
